

## SPONSORSHIP OPPORTUNITIES

Sea level rise associated with climate change is a clear and growing coast-wide threat facing every resident and business in all of New Jersey’s shoreline communities. Assessing and addressing this risk effectively requires a coast-wide plan of action. The framework for forging a coast-wide response strategy will be the topic of a New Jersey Future symposium, the first in our series of Big Conversations. The program will feature speakers from the private, public and non-profit organizations who are experts in the areas of climate change, flood mitigation, governance, insurance and risk.

**When:** Tuesday, October 17, 8:15am – 12:15pm

**Where:** The War Memorial, 1 Memorial Drive, Trenton, N.J.

**What’s in it for you?**

Help support New Jersey Future’s ongoing efforts to coordinate and continue the conversation among stakeholders involved in every aspect of development about how to focus our shared efforts on rethinking the future of the shore. It’s a great way to get your organization’s name in front of those individuals who are united in creating viable solutions.

**Who will be in the room?**

The perfect mix of the private, public and nonprofit sectors: mayors, township managers, public finance and insurance specialists, planners, contractors, community advocates, engineers from towns and private firms, and representatives from the legislature and state agencies.

**Sponsorships are \$1,000 and include:**

- Logo and hyperlink on conference webpage
- Logo and hyperlink on conference emails
- Sponsorship announced in social media
- Logo on sponsor signage
